

**Amendments to the Specification:**

Please replace paragraph [0007] with the following amended paragraph:

[0007] When the lamp 102 is used as the light source of the color scanner [[100]] 10, the light generated by the lamp 102 is incident on the document 110. The light is then reflected by the document 110 to project onto the optical system 104. The lamp 102 can be a fluorescent lamp, a cold cathode ray tube, or a light emitting diode array.

Please replace paragraph [0010] with the following amended paragraph:

[0010] The analog/digital converter 108 converts the analog signal of the charge-coupled device 106 into a digital signal, and transmits the digital signal into a computer [[116]] 118.
